

Are You Ready to Revolutionize Your Amazon Business in Just One Weekend?

Imagine this: It's Monday morning. You're sitting at your desk, reviewing your Amazon business metrics. But something's different.

Your sales are skyrocketing. Your conversion rates are through the roof. And your profit margins? They're healthier than ever.

This isn't a dream. This could be your reality after attending the BDSS Dream 100 Market Masters Think Tank happening September 12-16 in Austin, Texas.

This is NOT a conference or event aiming to improve your e-commerce sales by asking you to sit through an endless stream of generalized tips, none of which speak directly to the unique obstacles you're facing.

There's a better way to grow:

One that can give entrepreneurs like you a crystal-clear road map, showing exactly how to scale their business step-by-step ...

One that provides Amazon e-commerce sellers with tailored solutions to break through sales plateaus, leading to skyrocketing profits ...

And even offer smart business owners insights that

transform vague ideas into actionable plans, bringing clarity and direction ...

The secret is something I call “Personalized Think Tanks.”

It’s the fastest way I know to scale your business. You get tailored advice and detailed action plans from hand-picked experts, ensuring you leave with clear, actionable steps to propel your business forward.

There are no powerpoint presentations here or one-size-fits-all strategies.

The Real Risk? Staying the Same Means You Are Falling Behind

Did you know 80% of successful Amazon businesses fail within the first 5 years.

You might be thinking, "I don't have time for another event," or "I've been to masterminds before, and they didn't move the needle."

But ask yourself this: Can you afford to keep doing what you're doing? It doesn't matter if you are just starting or already doing \$75 million per year.

In the ever-changing world of Amazon, staying the same isn't just standing still—it's falling behind. Your competitors and the selling environment are evolving, and so should

you.

The real risk isn't attending this event; it's not attending and missing out on the game-changing strategies that could catapult your business to new heights.

Change Your Life in a Weekend

Rather than struggling to solve your business issues alone, come to Austin for a weekend to sit down with top Amazon experts and get tailored advice specific to your needs:

- **Personalized Hot Seats:** Personalized think tank for you with the undivided attention of six curated experts solving your specific Amazon and business challenges. A moderator helps keep everything on track and reduce any fear of vulnerability you may have.
- **Tailored Solutions:** Get battle-tested strategies and unlock hidden growth opportunities you never knew existed and are over-looking.
- **Elite Networking:** Build lifelong connections with the BDSS Dream 100 and other top minds like Janelle Page, Brian Johnson, Travis Zigler, and Clement Wan. I start with the current Dream 100, then additional experts are invited based on your specific needs and challenges.
- **Luxury Accommodation Included:** Recharge in your private room in the luxurious Gatsby Mansion

with a personal chef, trainer, and masseuse.

- **Gourmet Meals Included & Exclusive Fun Bonding Activities:** Enjoy delicious meals prepared by Kevin's private chef (catered to your dietary needs) and participate in unique activities like a murder mystery night, free stretching and massages, personal workouts, the cigar lounge, the mansion's game room and arcade, pickle ball courts, hot tub, pool and more.

Imagine just you, sitting at a table surrounded by Kevin King, Brandon Young, Amy Wees, Norm Farrar, Vanessa Hung, Adam Heist, Steve Simonson, Tim Jordan, and Chad Rubin—just to name a few.

These are experts who have been there and done it. They have the war wounds. For 2.5 hours, they'll be laser-focused on YOUR business. No presentations. No fluff. Just pure, actionable advice tailored specifically to skyrocket your Amazon success.

This isn't just another conference or normal mastermind. It's your ticket to transforming your business in a single weekend. You'll leave focused, with more clarity than ever before and tons of actionable strategies.

The Edge That Makes All the Difference

In the world of Amazon selling, the smallest edge can make the biggest difference. A tweak in your PPC strategy, a new approach to product sourcing, or an

innovative way to drive external traffic—these could be the keys to unlocking exponential growth.

At the Market Masters Think Tank, you're not just getting advice; you're getting the cutting-edge strategies that the top 1% of Amazon sellers use to dominate the marketplace.

Amy Wees, a Dream 100 member, says: "The small and more personalized masterminds I've invested in have grown me the most. It's about the quality time spent together with people who are all there to grow and share. That beats watching presentations and networking at any conference 10,000X!"

Reduce Time to Victory

Why spend months or even years trying to figure out the secrets on how to propel your business through the stratosphere when you can get them all in one weekend? The strategies you'll learn at Market Master aren't just theoretical—they're battle-tested tactics tailored specifically for your situation that you can implement immediately.

Attendees often see results within days of the event. As one previous think tank attendee, Tony Brink, an Amazon supplement seller doing \$7.5 million in annual sales, put it:

"Kevin, I still can't thank you and the panel enough for the big-brother advice at the Think Tank back in March to help

my Amazon businesses. Life-changing, and it set a new tone for the year."

One Thing That Will Change Everything

If there's one thing you need to believe about Market Masters, it's this: The personalized hot seat session alone is worth far more than the price of admission.

Where else can you get 2.5 hours of undivided attention from six curated experts, plus an entire weekend of follow-up questions, all focused on solving YOUR specific Amazon challenges?

This isn't just an event—it's an investment in your business future. An investment that could yield returns for years to come. This level of private consulting would likely cost over \$100,000 if piece-mealed together.

The Offer You Can't Refuse

Here's what you get:

- A 2.5-hour personalized hot seat with top Amazon experts
- Luxury accommodations at the stunning Gatsby Mansion
- Gourmet meals prepared by Kevin's private chef (dietary restrictions accommodated)

- Exclusive networking events with the Dream 100
- Access to unique activities like a murder mystery night, free massages, pickleball and more

The first 5 people to claim their spot get a FREE private welcome dinner with the Dream 100 on Thursday night at one of Austin's hottest new 5-star restaurants.

Invest in Yourself for a Massive ROI

For just \$4,997, you'll receive life-changing strategies tailored to your business, a specific action plan, and connections that will fast track you forward.

It's not uncommon for attendees to need a moment after their session because the advice is so profound and game-changing. You can also bring a business partner or just be an observer and get a discount.
